The Keyfob is one of them most well known control devices, being used for the some of the most widely adopted control tasks, such as accessing vehicles and opening and closing car garage doors. This Call Alert Keyfob is functionally equivalent to the DiscoverBus one button Keyfob

including being integrated into the Xped IoT platform. However it is differentiated by an alert icon, ensuring this Keyfob is easily distinguishable as having a call or alert function. It is perfect for duress applications or when a call or alert needs to be sent to a family, friend or carer.
